

Greenwood School Extended Day Elective Programs Winter Session

See page 2 for Schedule, pages 3 - 4 for a Description of
Classes and page 5 for the Registration form

Session 2: January 4th – April 1st, 2010

Sign up now for the second session of electives classes offered at Greenwood School. We have an ongoing daily Extended Day program that is full of activities, snacks and fun.

For those parents who want additional after school programs, we offer a series of Electives. There are separate fees for the Elective Programs. Program descriptions and fees are listed below.

Please sign up and pay for the Elective Programs in advance. There are no cancellations or refunds if your child misses a class.

Class sizes are limited and the programs are specifically geared for the designated age-groups. If a class is full, we will be happy to put you on the wait list. Elective classes will take place on school days only.

To sign up, please fill out the registration form attached and drop off the form and payment to Ann in the office before class begins. Classes begin Monday January 4th 2010.

NOTE: These classes require a minimum amount of children. If the class does not fill, we will refund your money and notify you as soon as possible. If you have any questions please feel free to address them to: Admin@Greenwoodschoo.org

Greenwood After School Spring Elective Classes Descriptions

Woodworking with John Heid

Second through Seventh Graders are welcome to come work with actual tools and create a variety of wood projects. Our fabulous wood working teacher, John Heid will lead the children after a snack to the Redwood lodge where they will work for a full hour. Imagination, creativity and technique will all be developed in this exciting class. He will return the students to Greenwood School by 5 pm. All instructions and materials are included. Grades 2 - 7

Karmin Guzdar

Come join Karmin in the kitchen and in the garden this winter, in a kid friendly cooking and gardening environment. Using all organic ingredients, items will be vegetarian, Gluten and dairy-free friendly. Students will learn about edible plants, spices, various flavorful ingredients and how to prepare these treats into easy nutritious vegetarian meals. She will give our younger students the opportunity to make the connection from organic raw food to the presentation of well-planned healthy feasts. This is a life long skill every child should have! Grades k-4th, sign up through Extended Day.

Soccer with Yassir Chadley

This has now become one of the most favorite elective classes around. Students continually ask to join this class. Boys and girls, younger and older can all participate in this exciting class. Students not only learn the fundamentals of the team sport soccer but also specific ball handling techniques and skill development. This is indoor soccer, at its finest.

More Lucas, more Art, more Often...What more could you want?

Our wonderful own Nature/games/gardening etc. etc. teacher, Lucas DeGuilio will be holding our Extended Care program this year. The multi talented, Lucas, will bring his artistic experience and enthusiasm to the children while guiding them in creative ways to express their natural desires through painting, building, gluing, cutting, coloring, exploring, playing and drawing all incorporated into our extended day program. Come create with Lucas Mondays, Tuesday, and Fridays. Sign up through the Extended Day Registration forms. Snack is always included!

“Can we have this class every day?” is what one students asked regarding after school Mandarin with Jing Bi. “ I love her, we eat, we sing, we play games and we really learn the Mandarin language.” Jing Bi brings the joy of learning to the students while sharing this rich culture through hand play, drawing, singing, recitation and stories.

Circus Arts with our new games Teacher Tess McGinley

More circus activities please....That's what we keep hearing. Who better to provide this but our amazing Tess McGinley? Tess brings experience and training to this class. Students will gain life skills such as strengthening, confidence, eye/hand coordination, eye tracking, balance mid line work and non dominant hand integration by having an opportunity to learn: uni-cycling, trick bicycle, balance beam, juggling balls, stilt-walking, clowning, tumbling and maybe even some Trapeze work. Come join all the fun!
Grades 4-8

Taiko Drumming is a fabulous Class with a Master Teacher!

Shohei Takahani comes from one of the most influential families in Taiko drumming in the USA. He's studying Child Psychology too and loves teaching our kids. Some of the students have been taking drumming for three years. Some are beginners. All are welcome as Shohei uses his older apprentices to demonstrate to the younger ones. Children will learn the basics of drumming, how to memorize the patterns and how to perform different traditional and modern drumming rhythms from both Japan and from our local vicinity. They have to work together learning rhythm, memory skills and using a lot of energy. They are always very proud of their achievements.

**Please fill out the Registration
form below.**
